3/5

This diagram shows an exploded perspective view of a cabinet assembly. The main components are labeled with numbers: 6 (left side panel), 7 (top left panel), 8 (top right panel), 9 (right side panel), 10 (bottom panel), and 11 (bottom front panel). Callouts include:
- **b1**: A screw used to secure the side panel (6) to the top panel (7).
- **b2**: A screw used to secure the side panel (6) to the bottom panel (10).
- **E**: A screw used to secure the bottom panel (10) to the side panel (9).
- **F**: A screw used to secure the top panel (7) to the side panel (9).
- **J**: A screw used to secure the bottom panel (10) to the bottom front panel (11).
- **K**: A screw used to secure the bottom front panel (11) to the side panel (9).

This diagram shows the exploded perspective view of a cabinet assembly. The main components are labeled: 10 (bottom panel), 11 (left side panel), 12 (top-left back panel), 13 (right side panel), and 14 (top-right back panel). Callout b1 shows a screw being inserted into the top edge of panel 11. Callout b2 shows a screw being inserted into the bottom edge of panel 11. Callout E shows a screw being inserted into the top edge of panel 10. Callout F shows a screw being inserted into the top edge of panel 14. Callout K shows a screw being inserted into the top edge of panel 13. Callout L shows a screw being inserted into the top edge of panel 12.

5/5

Diagram 5 illustrates the assembly of the top panel and drawers. The top panel (15) is shown being attached to the cabinet frame. A circular inset shows a close-up of the drawer front (6) being attached to the drawer body (11) using a screw (L). Another circular inset shows a close-up of the drawer front (6) being attached to the drawer body (11) using a screw (L). The diagram also shows the drawer front (6) being attached to the drawer body (11) using a screw (L).
