

Instruction guide for Boley L shape sofa

Here are .all the parts of the sofa you will find in the box .

Step 1

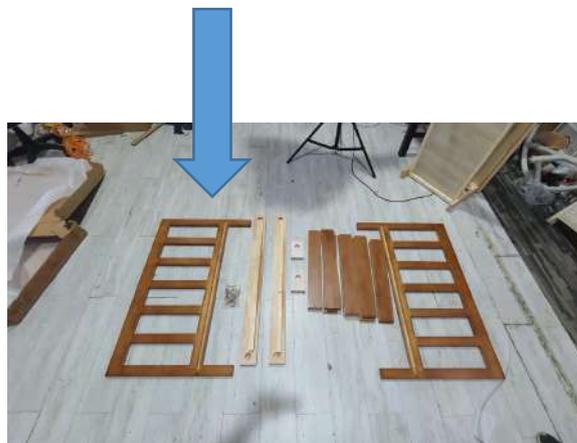

Put the wooden bars and round long thread screw in the both side arms of the sofa as shown in pic

Step 2

Back Arm

Attach the back part with the side arms with the screw shown in the pic and nut on the bottom Thread bolt .

### Step 3

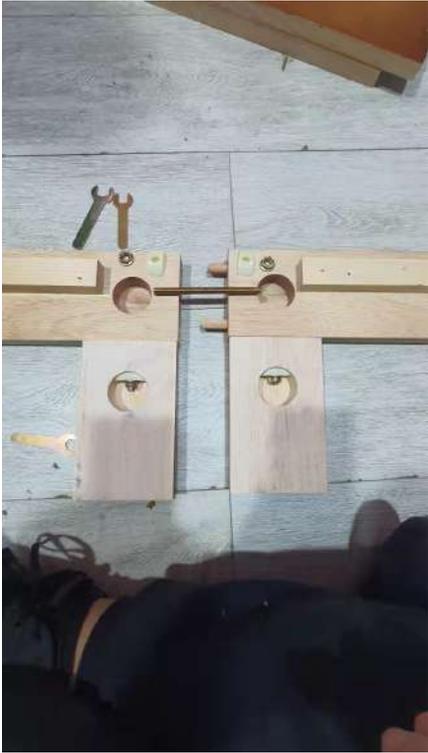

Then Join the 2 back side together with long bolt and screw as shown in the pic

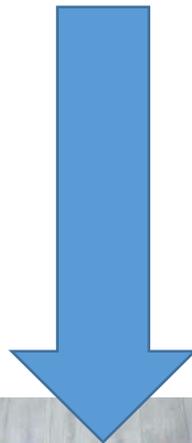

### Step 4

Then, join 2 bars and the leg, which is the front frame of the sofa, please check the arrow to find the parts.

Step 5

The join the bar which is assembled in Step 4 to the side arms which is shown with arrow in this step. Please check the screws and bolt used to join the parts in the picture.

Also , follow the same thing to join the other side .

So the frame of the sofa will be ready .

Step 6

Drill the screws on the frame slats to make the base. Try to leave equal amount of space between each part.

Step 7

These parts will be needed for making ottoman or (small L shape part)

Put the wooden bars 2 each on one side and in total 8 wooden bars will be used , and put the long thread screws x 4.

## Step 8

Attach the side frame with the bar and the tight with plastic round shape cover and then bolt .

## Step 9

Drill the screws on the frame slats to make the base. Try to leave equal amount of space between each part.
